V7 takes the stage! The 'V' series Skate Music Festival will rock Moe once again ... Now an annual event and in its' 5th year running. V7 is set to take centre stage at the showgrounds in Moe on the 15th December 2007. Off the back of such great success in 2006, this year's festival will see even more exciting additions.

Bridge Builders will once again play a MASSIVE role in the festival, delivering the WOW factor component of the event with skateboards, BMX and bladers all tearing up the ramps! Each year, the festival attracts over 5000 teenagers and incorporates live bands, skate and BMX comps, carnival rides, stalls, moto-x demos, celebrity dodgeball and heaps more. This year will certainly be no exception, with record crowds expected to converge on the arena throughout the day.

This will be Bridge Builder last event for 2007 and will be taking this opportunity to go out with a bang! So look out for the Skate enterprise into next year and be sure to stay tuned :-)
